

2026 Event & Sponsorship Opportunities

The Michigan Public Transit Association (MPTA) invites you to partner with us in supporting our mission of advancing public transportation in our state.

The MPTA was established in 1974 and currently represents over 80 transit providers, including both public transit agencies and specialized service companies utilizing a variety of vehicles, including bus, van, and ferry service. The MPTA advocates with the Michigan Legislature, the Michigan Department of Transportation and other state executive agencies, and the federal government.

The MPTA partners with the Michigan Department of Transportation (MDOT) to host a series of training programs providing tailored education for all transit providers in the state. We encourage you to consider opportunities to showcase your brand, network and connect with transit leaders, and support local transit agencies in their work.

MPTA Business Membership is available to vendors and suppliers to the transit industry and allows members to receive all communications, be included in the member directory, receive discounted conference rates, and participate in all events – including board and committee meetings.

Business Membership is currently just \$250 for the year ending September 30, and new membership applications must be approved by the MPTA Board of Directors. *Note: membership dues must be paid up to receive discounted rates.*
